MADRAS COMMERCE REPORT FOR THE MONTH OF FEBRUARY 1939.

Although the expected upswing in American business activities did not materialise, evidence was accumulating to show that the recent irregular trend and hesitancy in industry were perhaps the precursors of another advance. The Bureau of Agricultural Economics does not predict any important near-time business decline prior to the usual spring upturn.

The value of the exports from the Madras Province by sea to foreign countries amounted to Rs. 277·2 lakhs as compared with Rs. 302·09 lakhs in February 1938—a decline of Rs. 24·79 lakhs—whilst imports advanced by Rs. 4·83 lakhs from Rs. 220·34 lakhs to Rs. 224·87 lakhs. Leading cotton markets remained fairly steady during the month with the exception of Bombay which evidenced some what. The depression in the cotton piece-goods market which has been evident since the beginning of the year showed little or no sign of lifting. The failure of non dealer to meet his engagements further unsettled confidence. During the first week of the month the tanned hides market recovered somewhat but during the latter half of the month the market became easier again. In the tanned goat skins market, there was an substantial increase in prices except on occasional lots of heavy weights. Light weights were still in poor demand. Business in tanned sheep skins continued on a steady scale. In the groundnut market the attitude was good and quotations were firm. There was a fair Indian demand for pepper and the market was fairly steady. The ginger market opened weak but with fair European demand, it improved towards the middle of the month and closed steady. Prices of Ceylon coir yarns remained steady with a firmer tendency. The market for Cuboni coir yarns was also steady more or less with the exception of a few varieties of unwashed yarn. Prices of copra and coconut oil remained steady throughout the month. But for some demand from Calcutta the market would have dropped owing to supplies being good. The sugar market showed some sign of improvement early in the month and gradually became firm in sympathy with the Cawnpore market. Dealers were not anxious to buy at the end of the month and preferred to await the

announcement of the Central Budget, sales of chemicals during the month were fair. Tea continued to display a firm tendency and the recent satisfactory prices were well maintained. Rubber continued its improvement as a result of the recent decrease and substantial buying by Russia, and was supported by the better trade news from the United States of America and good general buying.

Groundnut.

The demand for groundnut was good throughout the month and the prices ruled firm. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Per candy of 531 lb.

27th January 1939—Rs. 20-4-0 to Rs. 21-15-0.
24th February 1939—Rs. 20-8-0 to Rs. 22-8-0.

Paddy and Rice.

The storage of paddy continued throughout the month. The market for paddy and rice remained steady with good demand. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Indian paddy per bag of 170 lb.

27th January 1939—Rs. 3-14-0 to Rs. 4-8-0.
24th February 1939—Rs. 4 to Rs. 4-4-0.

Indian rice per bag of 170 lb.

27th January 1939—Rs. 6 to Rs. 6-12-0.
24th February 1939—Rs. 6 to Rs. 6-12-0.

Rangoon rice—raw, broken—A 1 per bag of 220 lb.

31st January 1939—Rs. 8-10-0, Madras.
28th February 1939—Rs. 7-12-0, Madras.

Calcutta rice (Nepaul) hulled per bag of 184 lb

31st January 1939—Rs. 7-12-0, Madras.
28th February 1939—Rs. 7-8-0, Madras.

Coconut Products.

Owing to fair European and moderate Indian demand the market for Cuttandy and Beypore soaked coir yarns was steady throughout, but eased off towards the end of the month due to heavy arrivals. The market for fine unsoaked yarns also remained steady during the month, owing to fair European demand, but the market for Kallai and Periyangadi unsoaked yarns closed weak due to heavy arrivals and less European demand. The prices of Cochin coir yarns remained steady with a firmer tendency due to fair demand chiefly from India.

Quotations for copra and coconut oil weakened early in the month due to paucity of enquiries but later on prices ruled firm due to support from Northern India and the Cochi districts.

Cotton.

Leading markets remained fairly steady during February, excepting Bombay which weakened somewhat owing to increased arrivals and unsatisfactory off take.

Tinnevelly.—In the old crop only a few hundred bales of various grades and prices changed hands, Coimbatore mills being almost the only buyers.

In the new crop there were further moderate sales by dealers, beginning with about Rs 165 per 784 lb. average quality and receding to about Rs. 150 by the end of the month. Local mills were the main buyers and there was no enquiry at all for export.

The Tinnevelly cotton crop seems to have been greatly benefited by the late December rains and it looks as if the yield and quality will not fall short of the normal. First arrivals began at Virudhunagar and Sattur.

Karunganni in Coimbatore is reported to have suffered very much for want of rains.

Cambodia.—The Coimbatore Mills bought the old crop in moderate quantities.

In the new crop, Salem Cambodia ons first as usual, arrivals being about normal as regards quality. Prices ranged from Rs. 180 to Rs. 190 per 784 lb. First arrivals from the Coimbatore district proper which began to come in towards the end of the month, were of low qualities till the end of the month, but it was expected that later arrivals would be of normal qualities. Fair average Cambodia of Coimbatore fetched Rs. 210 per 784 lb.

The Cambodia crop has been a partial failure for want of rains.

There was no movement of Cambodia in the Southern districts up to the end of the month and no deals were concluded.

Sugar.

Early in the month the market showed some signs of improvement and gradually became firm in sympathy with the Cawnpore market. Prices for average qualities increased by five to six annas per cwt., but sellers were not anxious to sell large quantities though demand was good as there was a strong rumour in all Indian markets that the excise duty and the import duty for foreign sugars would be increased in the forthcoming Central Budget. Dealers also tried on purchase some quantities of Java sugar for immediate shipment, but could not do so owing to freight being impossible to arrange. The market did not respond to the extent of Cawnpore prices due to low quotations prevailing for foreign sugars which were below replacement costs for North Indian sugars and large arrivals of British refined sugar.

Dealers were not anxious to buy at the end of the month but preferred to wait until the announcement of the Central Budget when the position was expected to become clearer.

Imported sugar.—Some dealers purchased about 500 tons of British refined sugar from Colombo dealers at lower prices than those quoted by the first-hand dealers.

Madras prices of North Indian sugar ranged from Rs. 29-0-0 to Rs. 31-4-0 per bag of 2 cwts. in February 1939 as compared with Rs 28-11-0 to Rs 31-4-0 in January 1939.

Up-country markets continued steady with an upward tendency and demand was fair. Calicut and Cochin dealers became nervous and were not anxious to commit themselves to large contracts owing to rumours that considerable quantities of Java sugar had been booked to Western India and might be landed at both the ports. The prices quoted for Java were well below the replacement costs of North Indian sugars. The markets closed quiet.

The general trend of prices of gurs in South India now depends on quotations for imported sugars from time to time.

Tanned Hides and Skins.

Tanned Hides.—During the first week of February the market recovered somewhat. It turned out however to be only a temporary affair and during the latter half of the month the market became easier again and on the 28th February quotations were as follows:

Cocon 7½ lb.—13½ | Prunes 8½ lb.—13 3/8d.;
Prunes 6½ lb.—15½d.

Tanned goat skins.—Similar conditions prevailed as in the month of January with an substantial increase in prices, except on occasional lots of heavy weight goats. Light weights were in poor demand and were sent to London on a consignment basis. Inferior qualities of light weights found a better market than the better grades. An increase of one to two annas per pound was made on heavy weights especially in lower grades. Owing to small stocks, suppliers in Madras were able to hold out to expectation of better prices but the volume of orders and enquiries coming through was small.

Tanned sheep skins.—Business in tanned sheep skins continued on a steady scale. For middle class types orders were given for two to three months shipment making it impossible in some cases to book up further quantities. Commoner types were in small but steady demand till the end of the month, but prices were weaker in comparison. There were no large stocks in the market.

Shipments during February were as follows:—

3. Each tenderer must pay, as earnest money, a sum of rupees seventy only into the branch of the Imperial Bank of India or into the Government treasury at sub treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the River Conservancy Division, and enclose with his tender the challan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from the date of tender, whichever is earlier. This refund will be authorised by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denomination may be.

Failure to attend the Executive Engineer's office on the date fixed in the written intimation from such officer at to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorised to enter into contracts on behalf of Government.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, River Conservancy Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, lakes, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of salvage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Watch and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.
(9) Defects and shrinkage, etc., after completion (proviso 2d). } As amended in Chief Engineer's Memo. No. 1042/A.C./37 C.P., dated 20th November 1938.
(10) Contractor's risk and insurance (clause 70).
(11) Suspension of the works by the contractor (sub-clause 61)

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, River Conservancy Division, as set forth in the conditions of contract. The tenderer will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made

by the tenderer in the contract form. The conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are out upon for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials the charges to the contractor will remain as arbitrarily entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the date for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount)
One month	10 per cent.
Two months	25 per cent.
Two and a half months.	100 per cent.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the registration of foreigners in British India was presented to the Legislative Assembly on the 20th March, 1939:—

We, the undersigned, members of the Select Committee to which the Bill to provide for the registration of foreigners in British India was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Clause 2.—We consider it unnecessary to impose the obligations of sub-clause (c) of clause 3 on a private householder, and we have amended that sub-clause in that sense and in such manner that the use of the expression "householder" is avoided. The definition of the expression is consequentially omitted.

Clause 3.—In addition to the amendment to sub-clause (c) referred to above, we have removed some prolixity from the opening lines of this clause.

Clause 5.—In respect of offences by persons who are not foreigners we consider sentences of imprisonment undesirable, and we have amended this clause to provide a fine only in such cases.

2. The Bill was published in the *Gazette of India* Extraordinary, dated the 28th February, 1939.

3. We think that the Bill has not been so altered as to require republication, and we recommend that it be passed as now amended.

MINUTE OF DISSENT.

We consider that the definition of "Foreigner" for the purposes of this Act should include the people of all those Dominions and Colonies in the British Empire where Indians are discriminated against in any matter, by law or administrative practice or otherwise.

NOTE

I regret that owing to illness I was unable to attend the last meeting of the Select Committee.

Some doubt occurs to me about the definition of "foreigner". I take it that the Nepalese and people living in the trans-border territory to the north-west of our frontier are foreigners. Yet such large numbers of them visit British India that a registration of them is bound to give rise to practical difficulties. But according to my reading of the Bill as amended by the Select Committee the rule-making power is vested in the Central Government and will be exercised as the occasion or emergency may require.

March 19, 1939. RAZA ALI.

L.A. BILL No. 28 OF 1939.

[AS AMENDED BY THE SELECT COMMITTEE.]

(Words underlined indicate the amendments suggested by the Committee. Asterisks indicate omissions.)

A Bill to provide for the registration of foreigners in British India.

WHEREAS it is expedient to provide for the registration of foreigners entering, being present in, and departing from, British India;

* Subject to a minute of dissent

† Subject to a note.

It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Registration of Foreigners Act, 1939.

(2) It extends to the whole of British India.

Definitions.

2. In this Act—

(a) "foreigner" has the meaning assigned to it in the Foreigners Act, 1864, except that it does not include— III of 1864.

(i) a person duly appointed by a foreign Government to exercise diplomatic functions; or

(ii) a consul or vice-consul; or

(iii) any ruler or subject of any State in India;

(b) "prescribed" means prescribed by rules made under this Act.

Power to make rules.

3. The Central Government may, by notification in the official Gazette, make rules with respect to foreigners for any or all of the following purposes, that is to say—

(a) for requiring any foreigner entering, or being present in, British India to report his presence to a prescribed authority within such time and in such manner and with such particulars as may be prescribed;

(b) for requiring any foreigner moving from one place to another place in British India to report, on arrival at such other place, his presence to a prescribed authority within such time and in such manner and with such particulars as may be prescribed;

(c) for requiring any foreigner who is about to leave British India to report the date of his intended departure and such other particulars as may be prescribed to such authority and within such period before departure as may be prescribed;

(d) for requiring any foreigner entering, being present in, or departing from, British India to produce, on demand by a prescribed authority, such proof of his identity as may be prescribed;

(e) for requiring any person having the management of any hotel, boarding-house, serai or any other premises of like nature to report the name of any foreigner residing therein for whatever duration to a prescribed authority within such time and in such manner and with such particulars as may be prescribed;

(f) for requiring any person having the management or control of any vessel or aircraft to furnish to a prescribed authority such information as may be prescribed regarding any foreigner entering, or intending to depart from, British India in such vessel or aircraft, and to furnish to such authority such assistance as may be necessary or prescribed for giving effect to this Act;

(g) for providing for such other incidental or supplementary matters as may appear to the Central Government necessary or expedient for giving effect to this Act.

Burden of proof.

4. If any question arises with reference to this Act or any rule made thereunder, whether any person is or is not a foreigner, or is or is not a foreigner of a particular class or description, the onus of proving that such person is not a foreigner or is not a foreigner of such particular class or description, as the case may be, shall, notwithstanding anything contained in the Indian Evidence Act, 1872, lie upon such person. I of 1872.

Penalties.

5 Any person who contravenes, or attempts to contravene, or fails to comply with, any provision of any rule made under this Act shall be punished, if a foreigner, with imprisonment for a term which may extend to one year or with fine which may extend to one thousand rupees or with both, or if not a foreigner, with fine which may extend to five hundred rupees.

Power to exempt from application of Act.

6 The Central Government may, by order, declare that any or all of the provisions of the rules made under this Act shall not apply, or shall apply only with such modifications or subject to such conditions as may be specified in the said order, to or in relation to any individual foreigner or any class or description of foreigner.

Protection to persons acting under this Act.

7. No suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Act.

Application of other laws not barred.

8. The provisions of this Act shall be in addition to, and not in derogation of, the provisions of the Foreigners Act, 1864, and any other law for the time being in force.

Secretary to Government, Legal Department.

The following Report of the Select Committee on the Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for a certain purpose was presented to the Legislative Assembly on the 23rd March, 1939:—

We, the undersigned, members of the Select Committee to which the Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for a certain purpose was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Papers Nos. I—VII.

The amendments proposed by us to this Bill are of a purely drafting character.

Clause 3.—The notice or information is required to be given not by rules made under sub-section (3) of section 555 of the Code of Criminal Procedure, but by an order passed by the Court under sub-section (1) of that section. Our substitution rectifies the clause accordingly. The words we omit are redundant.

Clause 4.—This clause is new, but provides only for the necessary consequential insertions in Schedule II to the Code of Criminal Procedure.
